- Hindi
- Marathi

EDUCATION

Sandip University, Nashik

- **B.Tech**   2017 - 2021
  (Computer Engineering)
  CGPA - 8.1/10

CERTIFICATIONS

- **QSpider -**
  (Full Stack Development)

ACHIVEMENTS & AWARDS

Received many awards and Bonuses in Vagaro and Spidron Tech like employee of the month.

WORK EXPERIENCE

NBH Health Soft   Sept' 2025 - Nov'2025

- Led end-to-end development of a React Native–based Hospital Management (Clinical) application from scratch, delivering a scalable and role-based user platform.
- Designed and implemented core modules including appointment bookings, patient records, prescriptions/medications, payments, and medical history management.
- Integrated PHP-based REST APIs and built real-time notification workflows to ensure secure data exchange and seamless system communication.

Vagaro Technologies   Aug' 2024 - Feb'2025

- Developed reusable and scalable web components using Storybook, establishing a consistent and maintainable UI architecture across the application.
- Designed and implemented responsive, client-focused interfaces, proactively resolving complex data-mapping issues to ensure accurate and reliable data rendering.
- Integrated REST APIs to enable efficient data fetching and seamless state-driven communication across components.
- Diagnosed and resolved critical frontend blockers, improving application stability, performance, and overall user experience.

SpidronTech LLP   Jan' 2022 - Feb'2024

- Delivered end-to-end product solutions by translating business requirements into scalable, production-ready applications from concept to deployment.
- Designed and architected responsive UI systems, establishing structured and maintainable frontend architecture.
- Integrated and customized APIs aligned with evolving business needs, ensuring seamless functionality and data consistency.
- Ensured cross-platform compatibility, proactively resolved testing and production issues, and drove continuous product enhancements through innovative feature improvements.

PROJECTS

- **Clinical Healt App –** Hospital Management App for all users from Doctors to Patients.
  TechStack - React Native and PHP.
- **Vagaro Products –** A multipurpose application for Fitness, Beauty & Salon services for all users across Germany, US , Canada and other countries.
  Techstack - React JS , React Native and DotNet.
